Bilingual reading, in context

SYNTHETIC EXAMPLE / NOT RESEARCH DATA

Abstract

This demonstration keeps the English page beside a Chinese layout.
The example is self-authored and contains no personal library data.

Figure labels are part of reading

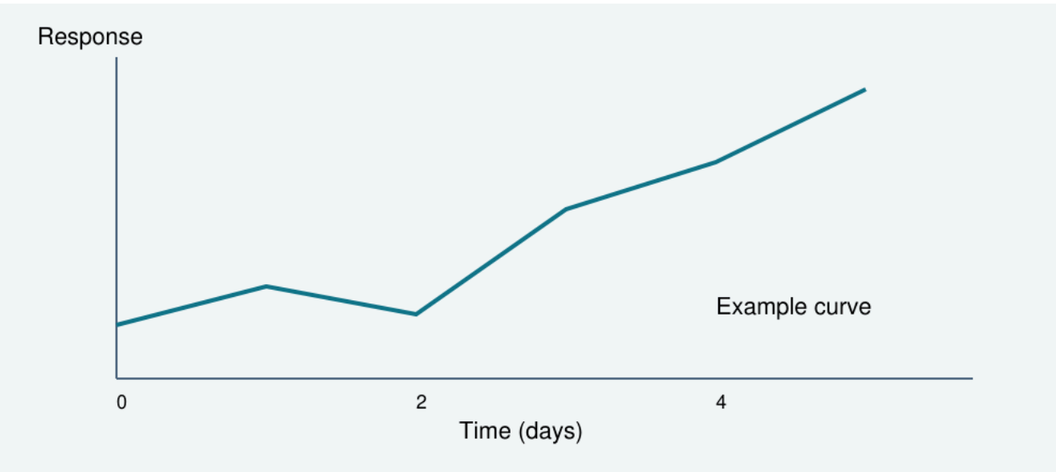

Figure 1. A synthetic curve illustrates label placement only.
The numbers do not represent an experiment or a scientific result.

Review before reuse

Prepared translations demonstrate typesetting, not model accuracy.
Check formulas, values and label masks against the source page.
